

TI Pro v5.9.1 Release Notes

What we've been up to on the journey of providing the best market tools in the world.

Changes in Version 5.9.1, since release 5.9.0:

Improvements

Advanced Order Entry Panel Display

- Adjusted Advanced Order Entry Panel settings for better display across monitors with different screen resolutions.

Bug Fixes

- Addressed a bug that could cause a post to get stuck in preview mode when attempting to share a chart to Twitter (X).
- Addressed a bug that could cause the last price and/or change-from-close data on a chart to briefly disappear and then return.
- Addressed a bug that could cause an exception message when starting the Money Machine from a race window before the Money Machine settings had been properly configured.
- Addressed a bug that could prevent TI Pro from starting properly when the user was missing a default layout in their filesystem.
