

## Changes in Version 5.6.70 (11/1/2023) since the release 5.6.68 (09/22/2023):

### New features:

History in AI Strategy Trade windows has been renamed to "History: Signals in the Money". AI History is displayed with specific columns. New columns displayed are Change from Close \$, Change from Close %, Long Term Profit \$, and Long Term Profit %. Change from Close \$ and % values reflect the change since the position was initiated. Long-Term Profit \$ and % will reflect this profitability which will allow the change from close columns to remain focused on today's data.
